

Joel Cano Ávila

Full Stack Developer

Querétaro, Mexico · Open to remote roles · [linkedin.com/in/joel-cano-avila](https://www.linkedin.com/in/joel-cano-avila) · github.com/canito0890

Full stack developer with 15+ years building and maintaining production web applications in Ruby on Rails, JavaScript, and PostgreSQL. Deep experience in telecom platforms — MVNO and telco CRMs, PBX systems, and the APIs behind them — owning features end to end from data model to deployment. Works with an AI-assisted, spec-driven development workflow.

SKILLS

Languages	Ruby · JavaScript · SQL
Backend	Ruby on Rails · REST API design · PostgreSQL · Redis · Asterisk
Frontend	Ember.js · JavaScript (ES6+) · HTML & CSS
Infrastructure & Ops	AWS · Docker · Nginx · Linux · Git
AI-Assisted Development	Claude Code · GitHub Copilot · Kiro · OpenCode · Spec-driven development
Generative AI (in training)	RAG pipelines · Vector databases (FAISS, Chroma DB) · Embeddings & similarity search

EXPERIENCE

Tech Lead

May 2021 – Present

Koonol México · Remote / Querétaro

- Build and maintain an MVNO CRM and its ancillary APIs in Ruby on Rails with an Ember.js front end.
- Own features end to end — data modeling, API design, front end, and deployment.
- Drive an AI-assisted, spec-driven development workflow across the codebase.

Ruby on Rails · Ember.js · PostgreSQL · REST APIs

Full Stack Engineer CONTRACT

July 2017 – Present

TheGuruCompany · Querétaro

- Ruby on Rails development on client web applications, part-time alongside my primary role.
- Apply AI-assisted development tooling to speed up delivery on smaller codebases.

Ruby on Rails · JavaScript · PostgreSQL

Full Stack Engineer

January 2018 – May 2021

GurúComm · Querétaro

- Built a PBX platform on Ruby on Rails and Ember.js, integrating Asterisk for voice telephony.
- Built a telco CRM in Rails + Ember.js used to manage customers, plans, and billing data.

Ruby on Rails · Ember.js · Asterisk · PostgreSQL

Tech Lead

March 2017 – June 2018

Kazam App · Mexico City

- Built a digital loyalty card application, covering backend, API, and client integration.

Ruby on Rails · PostgreSQL · Mobile APIs

Lead Developer CONTRACT

January 2018 – May 2021

Urbanity Technologies · Mexico City

- Developed a news and alerting application, including the notification delivery pipeline.

Ruby on Rails · JavaScript · PostgreSQL

Lead Developer

July 2015 – November 2016

Eucledian · Mexico City

- Lead developer at a web development agency, delivering client applications across several stacks.
- Handled architecture, implementation, and deployment on concurrent client projects.

Ruby on Rails · JavaScript · MySQL

Lead Developer

July 2011 – November 2015

Feather Mexico · Mexico City

- Lead developer at a web development agency, building custom web applications for clients.
- Worked across the full stack, from database design through front-end delivery.

Ruby on Rails · JavaScript · MySQL

Intern

July 2010 – August 2010

Bisazza · Mexico City

EDUCATION

Computer Technologies

2009 – 2014

Tecnológico de Monterrey · Mexico City

Visiting Student

2014

Massachusetts Institute of Technology · Boston

- Continued development on a Ruby on Rails project to visualize and analyze survey data for the Mega City Logistics Lab.

Exchange Student

2013

Tokyo International University () · Tokyo

CERTIFICATIONS

RAG and Agentic AI Professional Certificate IN PROGRESS

IBM · Coursera

- Build RAG Applications: Get Started
- Vector Databases for RAG: An Introduction

Data Science coursework

Coursera

- Exploratory Data Analysis
- R Programming
- Reproducible Research
- Getting and Cleaning Data
